Media Release for Immediate Publication:

AUSTRALIAN WALKING TOURS explores some of the oldest landscapes on the planet

Small parties of discriminating travelers will be able to walk deep into some of the oldest landscapes on the planet.

Australian Walking Tours **Fabulous Flinders Walk** is a six-day, fully guided experience that combines premium authentic outback accommodation, the best local food and wine and a walking programme never offered before.

The entire trip is fully supported with guide and vehicle. Each day's walk showcases the most breathtaking landscapes so unique to the Flinders Ranges. The discovery of such untouched landscapes creates a mystery for walkers wanting to experience and reconnect with history and time.

Highlights will include traversing Wilpena Pound and an ascent of St Mary Peak; a geological 'time-trip' through Brachina Gorge, a cradle of earth's earliest life forms; and a wildlife-filled walk from Blinman Pools.

When the evenings begin to fill with stars, walkers relax in premium authentic accommodation, including the famous Prairie Hotel at Parachilna and Wilpena Pound Resort. A chance for them to find out why a friendly far-flung bar is so integral to outback life.

In a nice twist, the drive from Adelaide to Hawker is broken with a cycle through the sublime vales and vineyards of Clare Valley. It's the chance for a civilized Riesling before entering the mighty red ranges.

The Fabulous Flinders Walk will cost \$2850, including all meals, accommodation, transport and guiding.
